

Campground Revenue

As with every year, the weather pattern plays an important role in the success of this sector. Camping continues to be a popular way to vacation, and generally mild temperatures in 2007 contributed to an increase in revenue for this sector. The spring season was especially strong for campgrounds in 2007.

2007 CAMPGROUND REVENUE

Month	Gross Business	% of Change
January	\$114,979	4
