

# Gas & Grocery Revenue

In recent years, gas prices have fluctuated dramatically, and 2015 saw a dramatic decrease in cost per gallon. Per AAA, gas prices in 2015 averaged about 94 cents per gallon less than in 2014. The 2015 national average price for a gallon of gas was \$2.40, which was the second cheapest annual average of the past 10 years. This contributed to extra money and larger budgets that visitors were able to use on their trips to Pigeon Forge and provided more feasibility for them to enjoy more activities while there.
